THALLAPALLI SRI RAMTEJA

+91-8247431694 | thallapallisriramteja@gmail.com
LinkedIn | GitHub | Codechef | Leetcode

PROFESSIONAL SUMMARY

Fresher with a solid understanding of programming fundamentals, basic data structures, and problem-solving. Familiar with arrays, strings, and fundamental algorithms, with hands-on coding practice. Continuously improving data structures, algorithms, and software development skills.

PROJECTS:

Employee Attrition Prediction System – (Python , Scikit-learn, HTML/CSS)-Github

- Developed a full-stack machine learning application using Python, and Scikit-learn.
- Implemented Random Forest and Gradient Boosting algorithms for attrition prediction.
- Integrated frontend forms with Flask APIs for employee data processing and prediction.
- Applied data preprocessing, model training, and prediction workflows using Python libraries.

Expense Tracker System (Python | JSON) – GitHub

- Developed a CLI-based expense tracking application using Python and JSON file handling.
- Implemented persistent transaction storage and retrieval using JSON data structures.
- Built category-wise summaries and date filtering using Python data processing logic.
- Applied modular programming and file handling techniques for financial data management.

Name-Based Password Generator (Python)-Github

- Developed a Python-based password generator for secure and randomized password creation.
- Implemented string manipulation and randomization algorithms using core Python concepts.
- Added password strength validation using conditional logic and input validation techniques.
- Applied algorithmic programming concepts to improve password security and complexity.

TECHNICAL SKILLS

- **Programming:** Python, SQL
- **Libraries:** Pandas, NumPy, Scikit-learn
- **Frontend:** HTML, CSS
- **Tools & Platforms:** Git, GitHub, VS Code,
- **Concepts:** Data Structures & Algorithms, OOP, Problem Solving

EDUCATION:

CMR INSTITUTE OF TECHNOLOGY 2022 – 2026
B.TECH IN COMPUTER SCIENCE ENGINEERING CGPA: 7.9

ACHIEVEMENTS:

Hackathon Winner – Malla Reddy University

- Secured 3rd Prize for developing a platform that tracks and updates coding contest scores from platforms like LeetCode and CodeChef.
- Implemented automated score fetching based on usernames provided by users after contests.
- Contributed to backend logic, data fetching, and presentation of leaderboard updates during the hackathon

1st Prize – Business Plan Competition (Statue of Equality)

- Won 1st Prize for presenting an e-farming portal idea that connects farmers and consumers directly.
- Proposed a platform to reduce middlemen involvement and improve direct product accessibility.

EXTRACURRICULAR ACTIVITIES:

- Coordinated 5+ cultural and social service initiatives as **NSS Event Organizer**, leading teams of 15+ members.
- Represented college at the **Kashmir Youth Festival** (national level), demonstrating leadership and cultural engagement.
- Led event planning, coordination, and team management for multiple cultural programs, ensuring smooth execution.
- Participated in Tribal Youth Festival, contributing to cultural representation and team performance.
