PROFESSIONAL SUMMARY

Frontend Developer with a strong foundation in **HTML, CSS, JavaScript, and React.js**, with hands-on experience building interactive and user-focused web applications. Experienced in **React Router, Vite, API integration, AI APIs, Browser Geolocation API, LocalStorage, JSON, and data visualization**. Strong understanding of programming fundamentals, problem-solving, responsive UI development, and software development practices.

PROJECTS:

SkillGap – AI Resume & Job Description Skill Gap Analyzer

(React.js | JavaScript | React Router | AI API | HTML/CSS | JSON | LocalStorage) – GitHub | Deploy Link

- Developed an web application to analyze resumes against target job roles and identify required skills.
- Implemented skillgap analysis to classify **matched, missing, weak, and additional skills** with levels.
- Integrated an **AI API** to generate personalized skill analysis and preparation recommendations.
- Built a personalized study roadmap with learning resources and progress tracking based on identified skill gaps.
- Created interactive **Recharts visualizations** to display skill matches, gaps, and job-readiness information.

FixMyCity – Civic Issue Reporting & Resolution System

(React.js | Vite | JavaScript | React Router | HTML/CSS | LocalStorage) – GitHub| Deploy Link

- Developed a React-based platform for citizens to report and track road-related civic issues.
- Implemented complaint submission with **photos, descriptions, severity levels, and GPS-based location capture** using the Browser Geolocation API.
- Built multi-stage complaint tracking covering **Submitted, Assigned, In Progress, and Resolved** states.
- Implemented officer-side complaint management with status updates, repair proof, and resolution remarks.
- Used **LocalStorage** to persist complaint data and maintain application state across user sessions.

TECHNICAL SKILLS

- **Programming:** JavaScript, Python, SQL
- **Frontend:** HTML5, CSS3, React.js, React Router
- **APIs:** REST APIs, AI APIs.
- **Libraries:** Recharts
- **Tools & Platforms:** Git, GitHub, VS Code
- **Web Development:** Responsive Web Development, DOM Manipulation, JSON, LocalStorage.
- **Concepts:** Data Structures & Algorithms, OOP, Problem Solving

EDUCATION:

CMR INSTITUTE OF TECHNOLOGY — 2022 – 2026
B.TECH IN COMPUTER SCIENCE ENGINEERING — CGPA: 7.9

ACHIEVEMENTS:

Hackathon Winner – Malla Reddy University

- Secured 3rd Prize for developing a platform that tracks and updates coding contest scores from platforms like LeetCode and CodeChef.
- Implemented automated score fetching based on usernames provided by users after contests.

1st Prize – Business Plan Competition (Statue of Equality)

- Won 1st Prize for presenting an e-farming portal idea that connects farmers and consumers directly.
- Proposed a platform to reduce middlemen involvement and improve direct product accessibility.

EXTRACURRICULAR ACTIVITIES:

- Coordinated 20+ cultural and social initiatives as **NSS Event Organizer**, leading teams of 50+ members.
- Represented college at the **Kashmir Youth Festival** (National level), demonstrating leadership and cultural engagement.
- Participated in Tribal Youth Festival, contributing to cultural representation and team performance.
